APR 20 P2:29

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I've studied estrogen replacement therapy for three years & determined that a compounded prescription is the most healthy compared to what universalist approach is taken by drug companies. If this is not available to women any longer it is a terrible disservice. America is about democratic choice — citizens should have that choice.
